CLEO EXCLUSIVE! The Makeup Edit

Sarah Nyugen-Greals, head makeup artist for The Body Shop UK, shares tips to update your makeup and beauty essentials.

Here are the five must-haves to add to your makeup kit:

1. While applying eye makeup, keep eyes open and look straight so you can see where to blend (over the sockets). Follow your natural socket shape when shading.
2. Blend a second eyeshadow colour (like Colour Crush Eyeshadow in Moonlight Kiss or Brownie & Clyde) to soften the edges for a smoky effect.
3. Give eyelids a wash of colour and smudge it out on both upper and lower lids. Add white eyeliner on waterline for a quirky touch.

A nip of this cream on the lips, cheeks or over eyes instantly freshens up your look!

We admit, we'd totally kill for the V-shaped face seen on anime characters! Enter Ultherapy, a non-surgical ultrasound treatment that tightens skin from within to give you the effects of a face lift. The surface of your skin is left undisturbed and your face will contour and sharpen over time. Aside from the chin, neck and jawline, Ultherapy can also be applied to the brow area to lift droopy lids, and cheeks for a slimming effect. Sessions last from 30 to 60 minutes and have no downtime – awesome!

Ultherapy is available at 12 Howard Road, Singapore. 464-7511 (11:00am-8:00pm) or 464-7500 (9:00am-6:00pm). For more information, please call 464-7500.
